PROFILE

Passionate and adaptable game developer with a special interest in Hyper Casual games.

Knowledgable in developing projects from start to finish.

Accustomed to working autonomously, fast-paced and deadline-driven.

Having a love for learning new things and creating fun experiences, I'm looking to leverage my skills into a role as a Unity developer

PROJECTS

September - October 2022

Published a game to the Google Playstore : Light Cubes

- solo developed in Unity 3D and scripted in Unity C#

May - July 2022

Published a game to the Google Playstore : Find The Emoji
